Feature Article: Fourth Annual Members Meeting to Explain Relationship with HPH, Path Forward

Attendees at this year's HHP Annual Meeting will hear more about the relationship between Hawai'i Pacific Health (HPH) and HHP, the role HHP plays in supporting and leading HPH strategic initiatives, HHP's four core services and ways the ACO supports both employed and independent physicians.

A question-and-answer session has been added to the beginning of the program, with roundtable discussions scheduled for the second half. There will also be a change in venue on

O'ahu this year, with a move from the Prince Waikiki to the Hilton Hawaiian Village Waikiki Beach Resort.

Over 100 of your colleagues have already registered! Don't miss out on this chance to network, meet new colleagues, learn about accomplishments to date and the plan for moving forward, and discuss ways HHP supports its physician members.

The Fourth Annual Meeting will be held on Aug. 29, 2017, 5:30 - 8 p.m. at the Hilton Hawaiian Village Waikiki Beach Resort and Sept. 21, 2017, 5:30 - 8 p.m. at Wilcox Medical Center.

Click [here](#) to register now, call Conference Services at 808-522-3469 or email conference@hawaiipacifichealth.org.

The flyer features the Hawai'i Pacific Health logo at the top left, with the tagline 'CREATING A HEALTHIER HAWAII'. To the right is the Hawai'i Health Partners logo. The main title is 'HAWAII HEALTH PARTNERS FOURTH ANNUAL MEMBERSHIP MEETING'. Below this, the dates and locations are listed: 'TUESDAY, AUGUST 29, 2017, 5:30-8 P.M. on O'ahu at the Hilton Hawaiian Village Waikiki Beach Resort' and 'OR THURSDAY, SEPTEMBER 21, 2017, 5:30-8 P.M. on Kauai at Wilcox Medical Center'. A central section titled 'CONNECT WITH YOUR HHP PEERS, HEAR ABOUT PROGRESS TO DATE AND LEARN MORE ABOUT THE ROAD AHEAD:' lists several topics: 'Relationship between HHP and Hawai'i Pacific Health (HPH)', 'Role HHP plays in leading and supporting HPH's strategic goals', 'Four core services: 1. Population Health, 2. Complex Care, 3. Practice Guidance and Support, 4. Managed Care Support', 'Ongoing support of independent physicians', 'State of the ACO - Year in review - What's next?', 'Question and answer session', and 'Roundtable discussions - get to know your HHP colleagues!'. Three small photos show people in professional settings. At the bottom, registration information is provided: 'Register now by going to event.com/d/f5qrc3/4W, calling Conference Services at 808-522-3469 or emailing conference@hawaiipacifichealth.org'.

HCC (Hierarchical Condition Categories) Coding Tip of the Month: Major Depression and Drug/Alcohol Psychosis

Introduced in 2004, HCC is defined as groupings of specific ICD-10 codes that roll up into a similar condition category and used for determination of capitated payments. HCC allows payments to be risk-adjusted based on patient complexity and used to predict future financial utilization and risk. More importantly, HCC and risk adjustment are important to accurately reflect the health of patients to effectively manage their health care. RxHCC include HCC codes that adjust risk due to prescription burden of disease.

Documentation is vital to HCC coding accuracy and assignment. Every diagnosis reported as an active chronic condition must be

documented with an assessment and plan of care. Applying the “MEAT” concept will allow providers to be confident that their documentation meets with HCC coding accuracy.

Definition of MEAT:

- **M**onitor: Signs, symptoms, disease progression, disease regression.
- **E**valuate: Test results, medication effectiveness, response to treatment.
- **A**ssess/Address: Ordering tests, discussion, review records, counseling.
- **T**reat: Medications, therapies, other modalities.

**Documentation Tips for HCC 58:
Major Depressive, Bipolar, and
Paranoid Disorders**

- ICD-10 categories F10-F19
- Weight: 0.330

Major depressive disorder, single episode, unspecified (ICD-10 F32.9) is most commonly utilized by physicians, but it does not qualify for this HCC.

Higher specificity of the disorder is necessary for this category:

- Single, recurrent episodes.
- Mild, moderate, severe.
- Partial remission, full remission.

**Documentation Tips for HCC 54:
Drug/Alcohol Psychosis**

- Codes that describe a mental or behavioral disorder should be used only when the relationship between the substance abuse and the

documented mental or behavioral disorder has been clearly established in the provider documentation. Use of linking statements or documentation of “causal” relationships for manifestation codes are necessary.

- **Psychotic disorders due to:** abuse, dependence or use of:
 - Alcohol
 - Opioid
 - Cannabis
 - Sedative
 - Hypnotic or anxiolytic
 - Cocaine or other stimulant
- **Disorders:** Amnestic, anxiety, delirium, delusions, dementia, hallucinations, intoxication, mood, perpetual disturbance, psychotic, sexual dysfunction, sleep, withdrawal.

Upcoming CME

Next HHP CME: Avoidable Hospital Admissions with Ammaar El-Sergany, MD: September 20 at Straub Doctor's Dining Room 12:30 – 1:30 p.m.

HHP Network Resource Updated

HHP has updated our new [network resource](#), designed to help improve network awareness and assist physician members and their staff with patient referrals. In addition to HHP's [Physician Directory](#), the new [network resource](#) can be used to search HHP members by specialty and features contact information, whether the physician is on Epic, and additional office details and notes. Please share this [network resource](#) with your staff and don't hesitate to send suggestions for improving the tool to info@hawaiihealthpartners.org.

Recorded CME

Recent Presentations:

- [Specialty Referral Guidelines](#)
- [2018 HMSA Quality Measures](#)
- [A Comprehensive Approach to Weight Management](#)

You can find all recorded presentations [here](#), under "Recorded Presentations."

However, please note that this is a work in progress and will not have all the information right away for everyone.

We hope you find this resource useful in your efforts to provide the right care to your patients.

HHP Welcomes New Members

HHP would like to welcome the following individuals who were recently appointed by the HHP Board of Managers as new members of the organization:

- [Liliane L. Kheng, MD](#), Internal Medicine, Independent
- [Peter Wang, MD](#), Anesthesiology, Straub Medical Center
- [Cori-Ann M. Hirai, MD](#), OB-GYN, UCERA
- [Emi Ota, MD](#), Family Medicine, Independent

Epic Practice Pearl: New SmartLinks Available for Assigning Dates

Timely and accurate documentation are necessary in delivering high-quality, high-value care to patients resulting in a healthier patient population and reduced costs. Epic enhancements such as SmartLinks facilitate documentation, achievement of quality metrics, and provide opportunities for improved performance as well as success tied to compensation.

A refreshable SmartLink (dot phrase that links to data) option has been made for date of service, so it will update with the latest date when you click on the “Refresh” button on top

of your note if you are copying forward a prior note.

Consider creating your own personal SmartPhrase combining text and SmartLinks. For example, creating “.BMIDATE” will have a refreshable date with a refreshable BMI for your notes, so you do not have to retype the date of service each time.

Abbrev	Expansion
BMIDATE	@DATEOFSVCR@ @BMI@

You can use it for other creative combinations that work for you. Search for both the refreshable and non-refreshable versions starting with “.dos” or “.date” for date of service.

.dos	
Abbrev	Expansion
☆ DOS	Returns the service date of the encounter
★ DOSR	Returns the service date of the encounter, refreshable Smart...

.date	
Abbrev	Expansion
☆ DATEOFSERVICE	Returns the service date of the encounter
★ DATEOFSERVICEREFRESH	Returns the service date of the encounter, refreshable Smart...
☆ DATEOFSVC	Returns the service date of the encounter
☆ DATEOFSVCR	Returns the service date of the encounter, refreshable Smart...

This SmartLink definition:

This will return the service date for the encounter. For hospital encounters, this is the admission date, or if not known the expected admission date, or if not known, today's date. For surgeries, it will be the surgery date. For appointments, it will be the appointment date. For registration contacts, it will be today's date.

SmartLink for Today's Date

Please note another useful SmartLink is “.TD” or “.TDREF” which pulls in today's date (not necessarily the date of the encounter).

TD	Today's date
TDREF	Today's date (Refreshable)

SmartLink to Auto-calculate Dates

There is also a refreshable SmartLink that can auto-calculate dates for you:

- .RELDATE[insert the parameter you wish to enter for the date.

If you think you can't remember the name of this SmartLink, you can make your own SmartPhrases.

Examples:

- .RELDATE[T+4 will pull in the date four days from now.
- .RELDATE[W+2 will pull in the date two weeks from now.
- .RELDATE[M+6 will pull in the date six months from now.
- .RELDATE[MB will pull in the first date of the current month.
- .RELDATE[ME will pull in the last date of the current month.
- .RELDATE[MB+2 will pull in the first date of the month, two months from now.
- .RELDATE[ME+2 will pull in the last date of the month, two months from now.

Abbrev	Expansion
I3M	in 3 months (around @RELDATE(M+3)@)

Have any ambulatory SmartPhrases you wouldn't mind sharing? Need help understanding or creating SmartPhrases to help you document? Contact the Clinician Epic Support Team at 535-7010, 522-2688 or itclinicianepicsupport@hawaiipacifichealth.org

HHP is proud to support and serve each of you and our community.
Mahalo for the care you provide to our patients.
