HHP/HPH COVID-19 Community Webinar Series

Thursday, January 14, 2021 5:30pm – 6:30pm

Moderator - 01/14/21

Andy Lee, MD

Medical Director, Hawai'i Health Partners
Chief of Staff, Pali Momi Medical Center
Hawai'i Pacific Health

Disclaimer:

 The following is intended as information resource only for HHP/HPH providers, clinicians, administrative and clinical leaders.

 Specific areas may not pertain directly to your clinical practice area and/or may not be applicable to your practice based on your existing workflows, infrastructure, software (e.g. EHR), and communications processes.

Webinar Information

- You have been automatically muted.
 You cannot unmute yourself.
- You will be able to submit questions via the Q&A section.
 - Due to time constraints, any unanswered questions will be addressed this week and posted on the HHP website
- A recording of the meeting will be available tomorrow on the HHP website and intranet.

How to Claim CME Credit

1. Step 1: Confirm your attendance

 You should have completed a brief questionnaire before joining today's live webinar.

2. Step 2: HPH CME team will email you instructions

- Complete and submit evaluation survey that will be emailed to you within one week of the offering.
- Your CE certificate will be immediately available to you upon completion of your evaluation.
- Questions? Email <u>hphcontinuingeduc@hawaiipacifichealth.org</u>

CME Accreditation Statement

- In support of improving patient care, Hawai'i Pacific Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.
- Hawai'i Pacific Health designates this webinar activity for a maximum of 1.0 AMA PRA Category 1 Credit (s) ™ for physicians. This activity is assigned 1.0 contact hour for attendance at the entire CE session.

COVID-19 Vaccination: Rollout

Melinda Ashton, MD

Executive Vice President and Chief Quality Officer Hawai'i Pacific Health

Phases

- Phase 1 a:
 - Long-term care facilities: CVS and Walgreens (Moderna)
 - Hospitals: Pfizer
 - Easiest to reach employees and others at clinical care sites, then affiliated, then non affiliated (managed by HDOH and HAH)
 - First responders
- Phase 1 b: 75+ and critical staff in essential worker roles
- Phase 1c: 65+, under 65 with comorbid conditions

Pfizer vaccine

- 2 trays received 12/16/20
 - 975 doses in each
 - Gave 2230 shots in 2 ½ days

Since then, have given ~10,000 doses across HPH

As of 1/11/21

	Doses on hand at start of week	Expected doses	Expect to administer this week	Expect to administer next week
KMCWC	4842	2340	1440	9120
PMMC	2526	2340	864	864
SMC	2862	2340	288	864
WMC	1392	1170	648	1272
HPH Total	11622	8190	3240	12120

Pier 2 Vaccination Site

- In collaboration with HDOH
- Vaccine supply dependent (Pfizer now, perhaps Moderna soon)
- Community vaccinations starting 1/18/21
- Monday to Saturday, by appointment
 - Finish Phase 1a, non affiliated
 - First responders
 - 75+ (with allowance to vaccinate an escort)
- Plan to continue through March, 20021

Pier 2

- # appointments completed so far: 0
- # appointments scheduled: 8,045
- # appointment slots left to schedule: 5,203

Information to sign up

- To begin the process, adults ages 75 and older can complete the online appointment request form at http://hawaiipacifichealth.org/CovidVaccine.
- Instructions to schedule your vaccine appointment will be sent via email or a representative will follow up to schedule your appointment

HPH TO BEGIN O'AHU COVID-19 VACCINE CENTER FOR ADULTS OVER 75

- The HPH COVID-19 Vaccination Center located at <u>Pier 2 – Cruise Terminal (521 Ala Moana Boulevard)</u> will be open as follows:
 - Monday through Saturday, beginning on Jan. 18, 2021

Vaccinations are available by appointment only.
 Walk-ins will not be accepted.

MyChart

 Patients who have a MyChart® by Hawaii Pacific Health account, who qualify for vaccine by age, will be sent a notification through MyChart where they can sign up for an appointment

If your patients do not already have an MyChart® account, please encourage them to create one online at MyChart.HawaiiPacificHealth.org, as it will be the easiest way to schedule an appointment

Schedule an Appointment

If you have a medical emergency, please call 911 or go to the nearest emergency department.

COVID-19 Alert

In an effort to ensure everyone's health and safety during the pandemic, we ask that you please schedule a telephone or video visit or contact your primary care physician's office for guidance before scheduling an in person visit if you have any COVID-19 symptoms including fever, cough, sore throat, shortness of breath, and flu-like illness or had a possible COVID-19 exposure.

E-VISIT

Patients who have an established primary care provider may be able to find appropriate care based on their non-urgent symptoms by using the E-visit tool. If you do not have a primary care provider, please call us at 808-643-4632 to schedule an appointment.

Appointments you need to schedule

COVID-19 VACCINE 1ST DOSE APPT

Schedule before 1/11/2022

SCHEDULE NOW

We removed the provider name from here.

Attention

You are now able to schedule an appointment with your Primary Care Physician using MyChart.

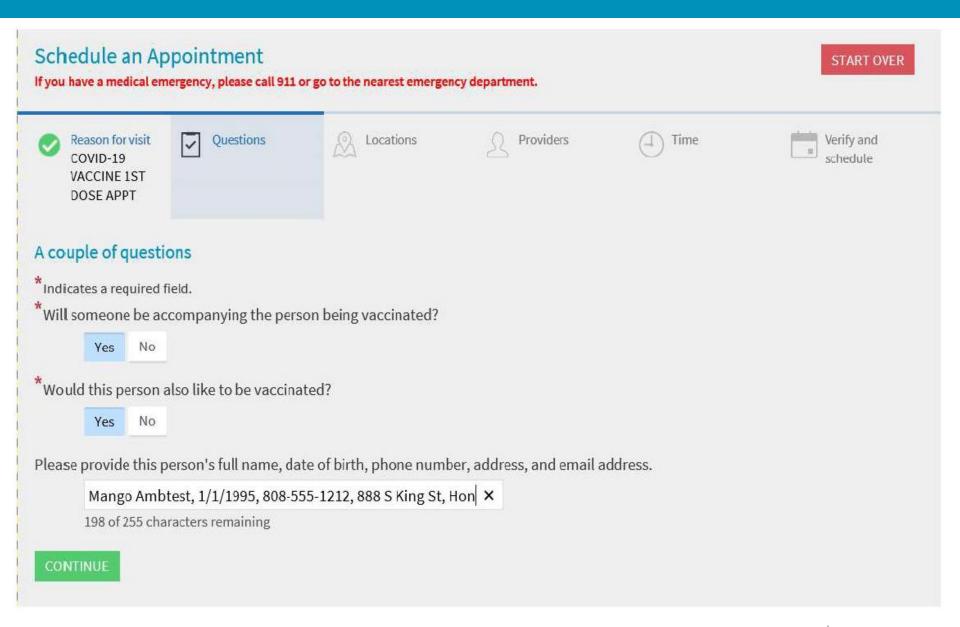

When scheduling an appointment, you will be asked to provide a reason for your visit and will also have the option of choosing an in-office, video or phone appointment as appropriate. Your doctor's office will review the appointment and may reach out to you to gather more information.

Find a new provider

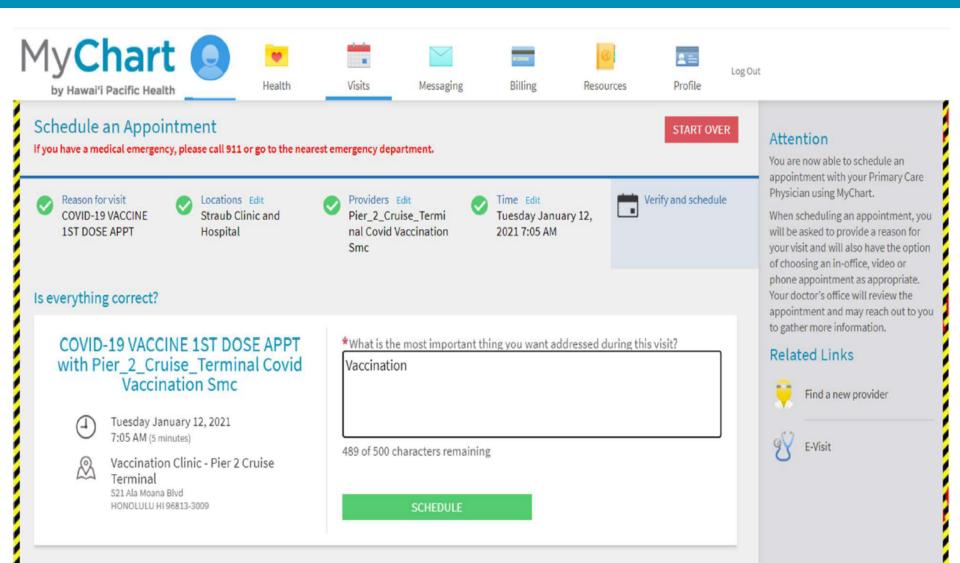

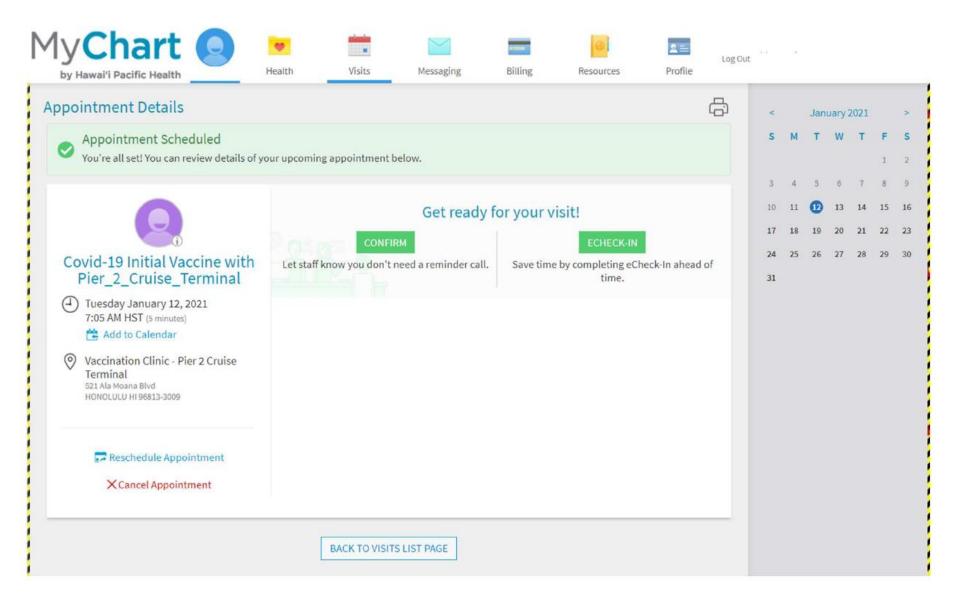

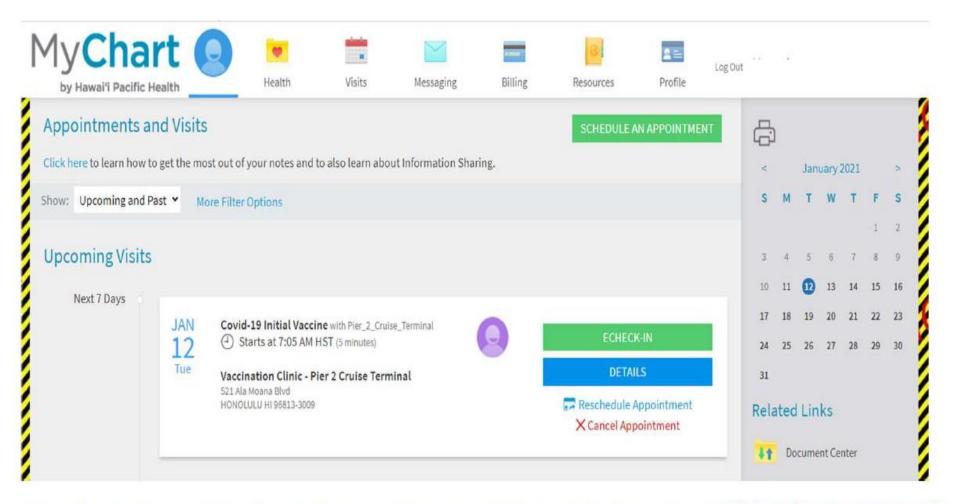

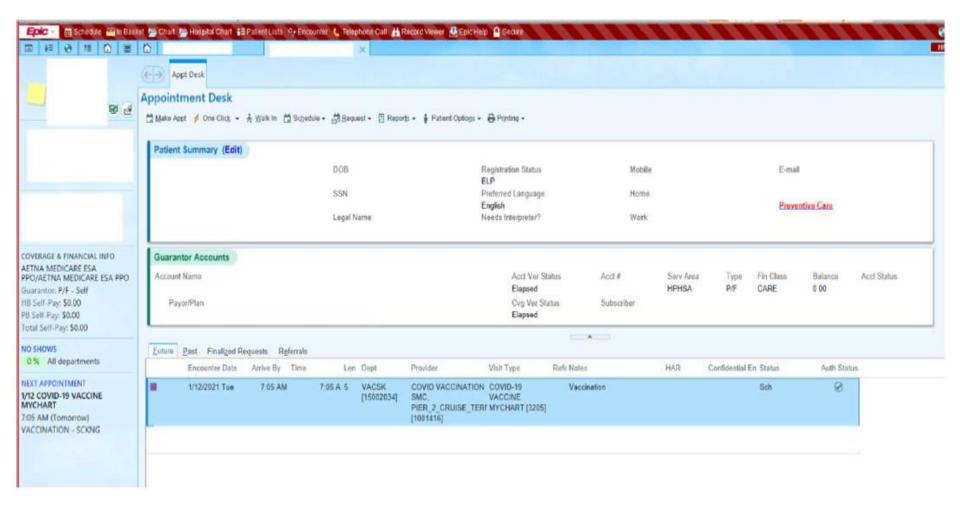

After the appointment is scheduled, an email message will be sent to the patient. This MyChart message will contain confirmation of the appointment.

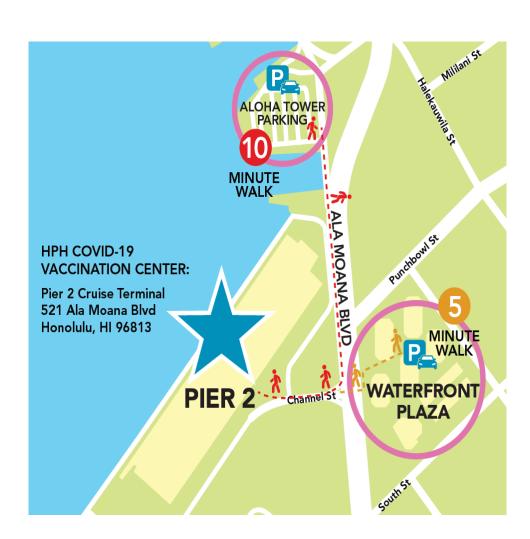

Clinic Users: Hyperspace View

FAQ: Parking

- Parking for the vaccine clinic is available at two locations:
 - Waterfront Plaza
 - Aloha Tower Market Place
- The special parking rate for both locations is \$2 for 2 hours with documentation of your vaccine clinic visit
- Pier 2 parking is limited and reserved for persons with restricted mobility. Pier 2 parking is \$5

FAQ: Can I bring someone with me to the appointment?

 You can have one escort accompany you to the appointment, but please be advised that no one under the age of 18 will be allowed inside the clinic. For those who are 75 years or older, the Department of Health plan allows an escort to also receive the vaccination at the same visit. If you intend to bring an escort, you will need to indicate that when you make your appointment and your escort will also need an appointment.

FAQ: How early should I arrive for my appointment?

- For patients with appointments at the O'ahu COVID-19
 Vaccination Center at Pier 2, please arrive no earlier than 30 minutes prior
- For patients scheduled for appointments at Wilcox
 Medical Center or Kaua'i Medical Clinic, please
 arrive no earlier than 15 minutes before your scheduled
 appointment.
- Patients who arrive too early will be asked to come back closer to their appointment time.

FAQ: How long will the vaccination take?

 For your safety and well-being, you will be monitored for any side effects by medical personnel for a minimum of 15 minutes after receiving the COVID-19 vaccine. At that time, you will also be given a questionnaire to fill out with contact information.

 Before you leave, you will also be asked to schedule your appointment for your second dose 21 days later.

FAQ: What do we tell our HPH patients who are 75 and over?

- We encourage patients 75 and older who previously have been seen at a Hawaii Pacific Health clinic or hospital to sign-up for or activate their Hawaii Pacific Health MyChart account as it will be the easiest way to be notified when it is their turn to schedule vaccination appointments
- Please note it will need to be a Hawaii Pacific Health MyChart account as MyChart accounts created at other health care organizations are separate from this effort

FAQ: What do we tell our HPH patients who are *under age 75*?

- As additional vaccine doses are received in the coming weeks and months, it will become available to more people based on the designated priority groups. Although we don't have control over the prioritization, please be assured that we will work to provide more information to our patients as quickly as we are able to
- We encourage patients who previously have been seen at a Hawaii Pacific Health clinic or hospital to sign-up for or activate their Hawaii Pacific Health MyChart account as it will be the easiest way to be notified when it is your turn to schedule vaccination appointments, based on the Hawai'i State Department of Health's vaccine timeline

FAQ: What do we tell people who are not patients of HPH regardless of age?

- Anyone fitting into this group should contact Hawai'i Department of Health.
- The Hawai'i Department of Health (HDOH) has provided a website that has COVID-19 vaccine information, FAQs, a call center, and an email address for the public to get answers to questions about the vaccine.
 - The website is <u>hawaiicovid19.com</u>
 - The email address is <u>doh.imb.vaxcc@doh.hawaii.gov</u>
 - The call center phone number is 808-586-8332
 - The staff is available on Monday Friday, 7:45 a.m. to 4:30 p.m.

For more information about the state's COVID-19
 Vaccination Plan and the vaccination timeline for priority groups, visit HawaiiCOVID19.com/Vaccine

COVID-19 Vaccination: Adverse Reactions and Who Shouldn't Get Vaccinated

Douglas Kwock, MD
Vice President, Medical Staff Affairs
Hawai'i Pacific Health

Current COVID-19 Vaccines

Pfizer-BioNTech:

- Ages ≥ 16 years of age
- 21 days apart

Moderna:

- Ages ≥ 18 years of age
- 28 days apart

Both vaccines:

- mRNA vaccines
- Two shot series
- 94%-95% effective after second dose
- Similar safety profiles

Current COVID-19 Vaccines

- ACIP does not give preference to one or the other vaccine
- The 2 vaccines are not interchangeable

similar

Study Reactions: Local

- Pain at injection site, swelling, redness, axillary swelling or tenderness
- Common (~ 85%) reported at least one reaction
 - Similar with first and second dose
- Onset within 1 day
- Duration 2 to 3 days

Study Reactions: Systemic

- Fatigue, headache, myalgia, arthralgia, fever, nausea/vomiting, chills, diarrhea
- Common (~ 75%)
 - More common with second dose
 - More common in younger individuals
- Onset within 1 to 3 days
- Duration 1 to 3 days
- Mounting a good immune response

Study Adverse Events

Serious

- Death, was life-threatening, required hospitalization, prolongation of existing hospitalization, or resulted in disability or incapacity
- Rare (0.5%-1%)
 - Appendicitis, myocardial infarction, cerebral vascular accident
- Similar rate between vaccine and placebo

Other

Bell's palsy

Anaphylaxis

Post-authorization events

- 29 reported cases in US
- Rate of 5.5 cases per million vaccine doses

Vaccine components

- mRNA
- Lipids: polyethelene glycol, cholesterol
- Salts, Sugars, Buffers: Sodium, potassium, sucrose, tromethamine (Moderna)

MAY PROCEED WITH VACCINATION PRECAUTION TO VACCINATION CONTRAINDICATION TO VACCINATION **CONDITIONS** CONDITIONS CONDITIONS Immunocompromising conditions Moderate/severe acute illness None CONDITIONS Pregnancy **ACTIONS ACTIONS** Lactation Risk assessment N/A **ACTIONS** Potential deferral of vaccination Additional information provided* 15-minute observation period if vaccinated • 15 minute observation period **ALLERGIES ALLERGIES ALLERGIES** History of allergies that are unrelated to • History of any immediate allergic reaction[‡] to History of the following are components of an mRNA COVID-19 vaccines or injectable therapies (except those contraindications to receiving either of the ALLERGIES vaccine†, other vaccines, injectable related to component of mRNA COVID-19 mRNA COVID-19 vaccines†: therapies, or polysorbate, such as: vaccines† or polysorbate, as these are • Severe allergic reaction (e.g., contraindicated) • Allergy to oral medications anaphylaxis) after a previous dose of an mRNA COVID-19 vaccine or any of (including the oral equivalent of an **ACTIONS**: injectable medication) its components Risk assessment • History of food, pet, insect, venom, • Immediate allergic reaction[‡] of any Consider deferral of vaccination and/or referral environmental, latex, etc., allergies severity to a previous dose of an to allergist-immunologist mRNA COVID-19 vaccine or any of its Family history of allergies components[^] (including polyethylene • 30-minute observation period if vaccinated glycol)# **ACTIONS** • Immediate allergic reaction of any • 30-minute observation period: severity to polysorbate^{*} Persons with a history of anaphylaxis (due to any cause) **ACTIONS** • 15-minute observation period: All Do not vaccinate# other persons Consider referral to allergistimmunologist

https://www.cdc.gov/vaccines/covid-19/info-by-product/clinical-considerations.html

Other Considerations

- mRNA COVID-19 vaccines are not interchangeable
- COVID-19 vaccine series should be administered alone
 - Minimum 14 day interval before or after administration of other vaccines
- History of prior SARS-CoV-2 infection (symptomatic or asymptomatic)
 - Yes, offer vaccine
 - No indication for SARS-CoV-2 testing prior to vaccination
 - May delay vaccination for 90 days after infection

Other Considerations

- Recent history of passive antibody therapy
 - Defer vaccination for at least 90 days after antibody therapy
- Current SARS-CoV-2 infection
 - Defer vaccination until after recovery from infection and after they are cleared from transmission risk
- Recent SARS-CoV-2 exposure
 - Defer vaccination until quarantine period has ended

Vaccine Event Reporting

- Required reporting
 - Vaccine administration errors
 - Serious adverse events
 - Cases of Multisystem Inflammatory Syndrome
 - Cases of COVID-19 that result in hospitalization or death
- Any clinically significant adverse event even if uncertain whether vaccine caused the event
- Reporting mechanisms
 - VAERS: https://vaers.hhs.gov, 1-800-822-7967
 - V-Safe: CDC downloadable smartphone app
